

People's Manifesto

**ST. GEORGE
NORTH-WEST**

You. Me. Us Shaping the
Next Five years

A MESSAGE FROM NIGEL DEGALE

"Across seven community sessions, 243 of you came out and spoke openly about what needs to change. You identified 116 priorities, and every one of them was rated five stars for urgency."

NIGEL DEGALE
CANDIDATE FOR
ST. GEORGE NORTH-WEST

My fellow residents of St George North-West,

From Brizan and Beausejour along the coast, through Willis, Mt. Moritz and Happy Hill, and across Grenville Vale, Grand Mal and Fontenoy, St. George North-West is made up of communities with different needs, but also tremendous potential. We have fishing and farming, established villages and growing communities, important heritage sites and a coastline that remains central to our way of life.

Across seven community sessions, 243 of you came out and spoke openly about what needs to change. You identified 116 priorities, and every one of them was rated five stars for urgency. The message could not have been clearer: these issues matter, and people are ready to see action.

What also stood out is that we do not always have to start from scratch. Across the constituency, community buildings can be restored and used better, projects need completion, public spaces have greater potential, and infrastructure has long waited for attention. At Moliniere, the Grenada Underwater Sculpture Park is already an important part of our tourism product, while communities such as Grenville Vale are still asking for basic facilities.

You spoke about safer roads, sidewalks and better lighting. You raised concerns about drainage, bridges and infrastructure that become dangerous when the weather turns. You asked for health care and other essential services to be brought closer to home, and for greater opportunities for young people through education, practical training, scholarships and employment.

But you also asked for something just as important: a greater say in what happens in your community.

You want representatives who are present, community structures that include everyone regardless of political affiliation, and a clear way to raise concerns and know what is being done about them.

This manifesto is built from those conversations. It brings together what you told us and sets out the work ahead across six main focus areas, with clear actions and priorities for St. George North-West.

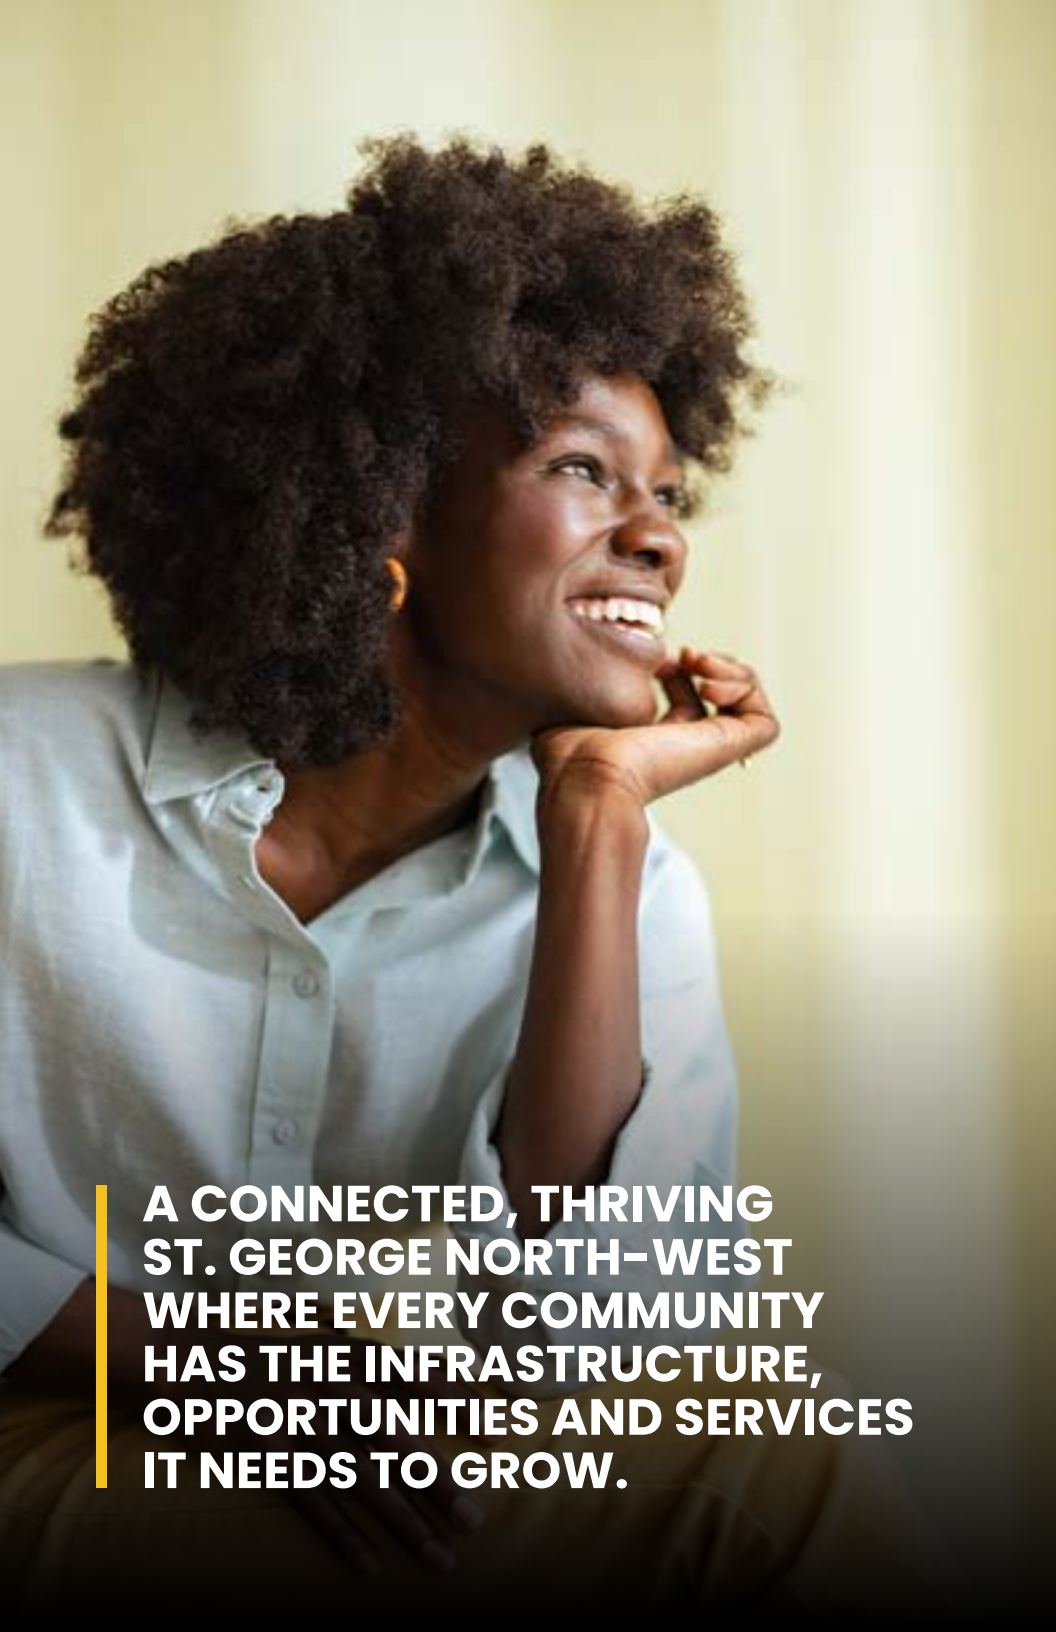

I want to be clear about what this document represents. It is not a list of things we claim to have already delivered. It records what you asked for and commits to what we will do.

My commitment is straightforward. I will remain present in these communities between elections, not only before them. I will keep you informed about what has been completed, what is underway and what has been delayed, and why. And I will make sure that the people of St. George North-West continue to have a voice in the decisions that affect their communities.

St. George North-West does not lack ideas, talent or potential. Now we need to finish what was started, address what has been neglected, and put our communities and their assets to work.

There is much to do. We know where to begin.

Nigel Degale
CANDIDATE FOR ST. GEORGE NORTH-
WEST

**A CONNECTED, THRIVING
ST. GEORGE NORTH-WEST
WHERE EVERY COMMUNITY
HAS THE INFRASTRUCTURE,
OPPORTUNITIES AND SERVICES
IT NEEDS TO GROW.**

OUR VISION FOR ST. GEORGE NORTH-WEST

From the coastline to the inland communities, St. George North-West has the assets to become a stronger place to live, work, learn and build a future.

The vision is for safer, better-connected communities. Community spaces that are active and useful. Young people with pathways into skills and employment. Coastal, agricultural and heritage assets create more economic opportunities. Health and social services are closer to the people who need them.

It is also a vision of communities having a stronger voice in their own development, with clear structures for participation, accountability and local decision-making.

Across Brizan, Beausejour, Willis, Mt. Moritz, Happy Hill, Grenville Vale, Grand Mal and Fontenoy, the goal is to unlock the potential already within these communities and create a constituency where development reaches people in their everyday lives.

PILLAR 1

COMMUNITY INFRASTRUCTURE

Residents spoke about community spaces that already exist but need attention, facilities that were started but never completed, and communities that still lack basic infrastructure. From community centres and playing fields to sanitation, public services, and spaces for learning and recreation, the message was clear. These facilities should work for the people who depend on them.

WE WILL

YEAR 2	Reconstruct Brizan Community Centre into a modern multi-purpose facility.
YEAR 2	Complete Beausejour beachfront development, including unfinished bridge, washrooms, and solar lighting.
YEAR 1 – 3	Eliminate pit latrines through improved sanitation facilities across the constituency.
YEAR 1	Undertake a comprehensive upgrade of playing fields for cricket, football and athletics, including a 900-capacity grandstand and dressing rooms.
YEAR 1–4	Develop a health centre, police station and learning resource centre in Willis, bringing essential services closer to the community.
YEAR 1–3	Complete and develop the Happy Hill Reason Club building as a multipurpose facility, including space for a post office and indoor recreation.
YEAR 3 – 5	Construct a modern cemetery with sheltered structures for services and second-level cremation facilities.
YEAR 3	Make government land at Grenville Vale available for commercial agricultural production and apiculture, creating opportunities for productive use of the land.
YEAR 1	Establish a Fontenoy Development Authority and oversee completion of outstanding works on community centres

PILLAR 2

ROADS, DRAINS, LIGHTING & SAFETY

Residents raised concerns about the condition and safety of the roads they use every day. In several communities, poor drainage, unsafe road conditions, inadequate lighting and limited access continue to create problems for motorists, pedestrians and families. The priority is not only to repair roads but to make travelling through St. George Northwest safer and easier, while addressing the drainage and hillside problems that repeatedly put communities at risk.

WE WILL

YEAR 1	Install speed bumps and traffic-calming measures on Grenville Vale Back Road to improve safety for motorists and pedestrians.
YEAR 1	Install energy-efficient solar street lighting in high-risk areas across the constituency.
YEAR 3	Construct an alternative road linking Upper Beausejour and Brizan, improving access and helping to reduce roadside parking.
YEAR 3	Rehabilitate Jones Road, Bellview Road, and Noel's Road
YEAR 4	Stabilise the hillside at Oathill Basin with retaining walls to prevent debris on roadways
YEAR 5	Create a new road connection between Fontenoy and Grand Mal, providing another link between the two communities.
YEAR 1	Repair the sunken drain at Stone Road and reconstruct the damaged bridge at Back Road
YEAR 3	Construct agricultural access roads to Mt. Dor, giving farmers better access to their lands.

PILLAR 3

YOUTH & SPORTS

Residents consistently spoke about creating more opportunities for young people to learn, develop their talents, and prepare for the world of work. Across the consultations, after-school programmes, practical skills training, and better pathways into employment came up repeatedly.

WE WILL

YEAR 1	Establish structured after-school programs including music, arts, and homework assistance
YEAR 1	Expand TVET training in hybrid vehicle maintenance and marine engine repair
YEAR 2	Add classroom spaces above the Beausejour Preschool to accommodate youth programmes, training and community learning
YEAR 1	Create a community sports club supporting multiple disciplines and inter-constituency leagues
YEAR 1	Provide scholarship opportunities for young people ages 18-30 pursuing studies in engineering, medicine and accounting.
YEAR 1	Launch a community-based employment service connecting young people with job opportunities, training and employers.

PILLAR 4

SOCIAL DEVELOPMENT

Young people across St. George North-West need more opportunities to learn, build practical skills and prepare for the world of work. Throughout the consultations, after-school programmes, technical training and stronger pathways into employment came up repeatedly, alongside greater access to sport, music and the arts.

WE WILL

YEAR 2	Expand access to affordable residential land and low-interest financing to help families build and own their homes.
YEAR 2	Provide parenting education and family-life programmes to support parents and strengthen families.
YEAR 1	Form a Community Development Committee and hold quarterly town hall meetings to keep residents involved in decisions affecting their community.
YEAR 1	Partner with the National Training Agency to provide practical training in hydroponic farming.

A photograph of an underwater scene featuring several statues of people, likely part of the Grenada Underwater Sculpture Park. The statues are partially covered in coral and marine life. A diver is visible in the background.

PILLAR 5

TOURISM & ENVIRONMENT

The coastline of St. George North-West holds some of the constituency's greatest potential. From its beaches and marine attractions to historic sites and natural waterways, these assets can create more opportunities for local businesses, recreation and community tourism while protecting the environment that makes them valuable in the first place. The aim is to do more with what is already here by developing our natural and heritage assets in ways that bring greater benefits to the surrounding communities.

WE WILL

YEAR 2	Redevelop the historic ice factory into a tourism and heritage attraction, preserving an important part of the area's history.
YEAR 2	Upgrade and further develop the Grenada Underwater Sculpture Park at Moliniere as a stronger part of the constituency's tourism product.
YEAR 1	Construct shower and changing facilities at Fontenoy and Beausejour beaches, making these spaces more welcoming and functional for residents and visitors.
YEAR 1	Introduce community-led beach clean-up programmes and install waste bins to keep the Grand Mal coastline clean and properly maintained.

A photograph of a smiling nurse in a green uniform with a stethoscope around her neck, standing next to an elderly woman who is also smiling and pointing towards the camera.

PILLAR 6

HEALTH & SENIOR CARE

Access to healthcare should not become more difficult simply because of where someone lives. Across the consultations, people spoke about bringing essential services closer to their communities, improving access to preventive care and reducing the pressure on the General Hospital. Better community-based care makes it easier to get help when needed, while giving people more information and support to manage their health before problems become more serious.

WE WILL

YEAR 1	Provide regular visiting nursing services and first-aid training within the community, making basic health support more accessible.
YEAR 2	Develop a polyclinic with 24-hour service, providing another option for care and helping to ease the pressure on the General Hospital.
YEAR 1	Expand diabetes education and preventive health programmes, including regular community health sessions.
YEAR 1	Strengthen oversight of healthcare facilities, supported by periodic ministerial visits to assess services and address concerns.

TRACKING OUR PROGRESS

**A PLAN ONLY MATTERS IF
PEOPLE CAN SEE WHAT IS
BEING DELIVERED.**

The People's Manifesto will not end with its publication. We will use it as a working document to track the commitments made to your community over the next five years.

We will review progress against the priorities identified in the manifesto, with updates showing what has been completed, what is underway, and what still requires attention.

This will give residents a clear way to follow the work, see how priorities are advancing, and understand where progress is being made.

**YOU HELPED SHAPE THE PLAN. YOU SHOULD
ALSO BE ABLE TO SEE HOW IT IS BEING
DELIVERED.**

Online Progress Tracker

A dedicated website will list the commitments in the manifesto and show the status of each one — including what has been completed, what is in progress, and what is still to come.

Annual Community Review

Each year, we will return to the community to review progress, discuss what has been delivered, and hear directly from residents on what still needs attention.

ST. GEORGE NORTH-WEST

Thank you for your voices - all seven hundred
and seventeen of them.
